

## Interior Designer

📍 Newport, KY (In-Person)

📅 Growth Opportunity: Grow the Interior Design Part of our Studio

You are **smart and quick-witted**. You're highly organized—**obsessed with details**—and have an uncanny talent for orchestrating chaos into calm. **You see beauty where others see blank space and understand that exceptional interior design doesn't just support architecture—it elevates it.** Your work is **emotionally resonant, technically excellent, and always grounded in purpose.**

You are **creative, intuitive, and strategic**. You know how to read a room—literally and figuratively. You're proactive, design-driven, and love the challenge of juggling multiple projects with grace. Your curiosity is bottomless. Your empathy is a strength. And your influence? Quiet but powerful.

You love systems—not because someone told you to, but because making things flow efficiently is your favorite kind of magic. If a process doesn't exist, you'll make it. You lead with both inspiration and clarity, and your standards? Very high—but so is your ability to uplift the people around you.

Wow—if this sounds like you, we should talk.

Emboss is seeking an experienced **Interior Designer** to join our growing team. This role is ideal for someone who brings exceptional design skills, technical proficiency, and a passion for creating spaces that inspire. You will collaborate with architects and design leaders on a variety of projects—from community-focused spaces to commercial interiors—and be a key contributor from concept to construction.

This role requires a strong ability to translate design vision into construction-ready documents, and to generate beautiful, inspiring renderings that bring ideas to life. We're looking for someone who is both creatively curious and technically solid, comfortable working both independently and as part of a team.

### This role requires:

- Ability to produce complete, high-quality **Interior Design Construction Documents** with minimal supervision under the guidance of an architect
- Mastery in creating **realistic, inspiring renderings** using **Revit and Enscape**
- 5-7 years of professional interior design experience in commercial or institutional projects
- A degree in Interior Design, Architecture, or a related field from an accredited program
- Deep knowledge of interior materials, FF&E, and design documentation processes

### Nice to have:

- NCIDQ Certification (or on the path toward it)

### Responsibilities:

- Lead and support the development of space plans and program requirements based on client needs
- Collaborate with the team to develop design concepts and translate them into Construction Documents and inspiring presentations
- Select finishes, lighting, and FF&E in alignment with project vision and budget
- Create presentation packages and renderings that clearly communicate design intent
- Assist in budgeting, bid documentation, and FF&E procurement processes
- Support the team in construction administration tasks, including submittal review and site visits
- Stay current on design trends, materials, codes, and ADA requirements
- Help maintain the materials library and digital resource catalogs

### Tools & Skills:

- Revit (must be highly proficient)
- Enscape (must be highly proficient)
- Adobe Creative Suite, MS Office
- Strong communication and collaboration skills
- Comfort with open feedback and fast-paced work environment
- Strong organizational skills and attention to detail

**Culture Fit:** We're looking for someone who is curious, energetic, highly accountable, and a knows how to have a good time. Our team is collaborative, passionate about design, and deeply committed to the communities we serve. If you thrive in a purpose-driven studio that values big ideas and great execution, we want to meet you.

### How to Apply

1. Complete our Culture Index survey: <https://go.cultureindex.com/s/kLFZgUEdJm>
2. Send your resume, portfolio and a short note on why this role speaks to you to [Emma@EmbossDesign.com](mailto:Emma@EmbossDesign.com)
